

GET BEHIND THE DATA – ACCESS TO OVER 200 MILLION DATA POINTS

NEXT GENERATION AUDITOR TOOLS

Enhance your audit work using cutting edge tools. Calcbench is an interactive data platform for researching and analyzing 10Ks, 10Qs, Earnings Releases and more. Use Calcbench to:

- Improve audit planning
- Gain efficiency around analytic procedures and substantive testing
- Enhance risk analysis, benchmarking clients data against peer data and across industry
- Build expectation models by collecting financial accounting data directly in Excel
- Examine reporting practices and understand company disclosure trends

ENHANCED AUDIT QUALITY

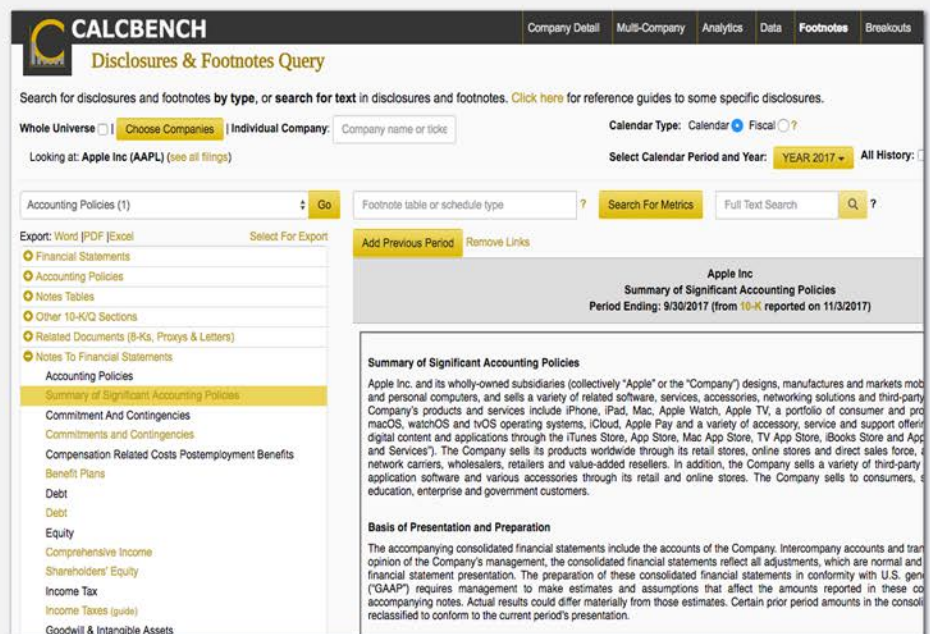

Review revisions. Calcbench traces all numbers back to the source so that you can back up any number without additional effort. Utilize the revision history to quickly go back in time to look at reporting changes.

CUSTOMERS INCLUDE

Financial institutions, professional service firms, government agencies, large corporates and universities. Calcbench is used by top 10 hedge funds, top 10 global accounting firms, Fortune 100 firms, and elite academic and teaching universities.

GREATER EFFICIENCY

Examine how disclosures are reported. Utilize Calcbench's Footnotes Query to explore how different disclosures are reported in a client's industry and peer group.

 **Calcbench can't be beaten. It's fast, flexible and friendly, and let's our team pull data out of those hard-to-reach places – like footnotes and balance sheet details – with an ease that older databases can't come close to matching.** ~ CPA Client

GET BEHIND THE DATA – ACCESS TO OVER 200 MILLION DATA POINTS

EASY ACCESS TO HARD TO FIND INFORMATION

Access to robust financial data, including **1200+ metrics for 9000+ companies** through our website, **API** or **Excel plugin**.

Query on hundreds of face and footnote metrics, including auditor and going concern modifications. Pull the numbers right out of the text with our interactive disclosure tools.

Can't find what you need? Make a specialized request for data.

STAY UP TO DATE

Remain at the top of your game. Our platform retrieves **as-filed data, in line-item detail**. With Calcbench's real-time data universe, your data is updated every few minutes.

Plus, receive alerts when company information is available.

PROSPECT AUDIT CLIENTS

Track all auditor reports on financial statements disclosed since 2000.

Benchmark company's auditors including the name of the auditor for each company, audit fees, auditor tax fees and other auditor fees. With Calcbench data, you can assess fees as a percentage of assets.

Ticker	audit_fees Y-2016 Total : \$14,225,343,658,110 Average : \$3,760,334,036	tax_fees Y-2016 Total : \$958,212,722,255 Average : \$276,221,598	audit_related_fees Y-2016 Total : \$776,187,301,951 Average : \$231,697,702
